PROFESSIONAL SUMMARY

Motivated BCA student seeking a Frontend Developer internship, with hands-on experience building responsive and user-focused web applications using HTML, CSS, JavaScript and React.js. Also interested in AI integration, with practical projects involving AI APIs, AI assistants and prompt engineering. Eager to learn, contribute to real-world products, and strengthen modern front-end development skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

Programming: PYTHON, C, C++, JAVA, DSA

AI: AI APIs, Prompt Engineering

PROJECTS

Agri-Connect — AI-Powered E-Commerce Platform

Tech Stack: HTML, CSS, JavaScript, React.js, AI APIs

- Built a responsive e-commerce frontend for browsing agricultural products and categories.
- Implemented product search and user-friendly shopping experience.
- Created reusable React components and a mobile-responsive interface.
- Added AI-powered assistance/integration to improve the user experience.

AI Healthcare — AI-Powered Healthcare Assistant

Tech Stack: React.js, JavaScript, AI APIs, [Google Gemini]

- Developed an AI healthcare assistant with AI-based symptom analysis.
- Added nearby hospital discovery and an emergency call feature.
- Built a user dashboard and responsive healthcare interface.
- Designed the application to provide an accessible, user-friendly experience.

Weather Dashboard

Tech Stack: HTML, CSS, JavaScript, [Open weather Map]

- Built a responsive dashboard for current weather information and forecasts.
- Added city search, location-based weather, temperature, humidity and wind speed.
- Included weather conditions and 5/7-day forecast functionalist.
